Zoning District Information:

Current Zoning District (s):

R-1 SINGLE FAMILY LIMITED

The purpose of this district is to accommodate single family site built and modular construction. The minimum lot size allowed in this district will be dependent on the provision of public or community water and sewer facilities. Although areas may be served with such utilities, most of these areas are located beyond existing or anticipated utility service coverage areas. The minimum lot size for residential uses in this district is therefore larger than in other residential zoning districts.

Proposed Zoning District:

R-2 SINGLE FAMILY MODERATE

The purpose of this district is to accommodate single family site built and modular construction and double-wide manufactured home placement. The minimum lot size allowed in this district will be dependent on the provision of public or community water and sewer facilities. Although areas may be served with such utilities, most of these areas are located beyond existing or anticipated utility service coverage areas. The minimum lot size for residential uses in this district is therefore larger than in other residential zoning districts.

USO URBAN STANDARDS OVERLAY DISTRICT

Areas of the County which are located outside their corporate limits and /or municipal Extra Territorial Jurisdiction (ETJ) but where the provision of public water and sewer services can reasonably be expected to occur over the next 10-15 years, have been designated as the "Urban Standards Overlay District". Accordingly, standards for development, more akin to those that traditionally are found in urban areas, as opposed to rural areas, are called for. Standards addressed, but not limited to: building design, off-street parking, road, lot and subdivision standards.

Note: If any portion of the subject property is within the USO, then the entire property shall be developed in accordance with USO standards.

STAFF COMMENTS: The overly districts would remain in effect, regardless of whether the request is approved or not.

COMPREHENSIVE PLAN:

Small Area District: Northeast of the Comprehensive Plan Strategy Map.

Key Issues: Wildlife habitats, availability of water, sewer, etc., adequate roads and road system, greenways, parks, and recreation facilities.

Statement of Consistency: It is staff's opinion that the request is consistent with the Comprehensive Plan.

TECHNICAL REVIEW COMMITTEE:

Request was reviewed by TRC for comment and general compliance with applicable regulations and provisions. The Technical Review Committee is made up of various technical land use reviewing agencies such as North Carolina Department of Transportation (NCDOT), Environmental Health, Gaston Cleveland Lincoln Metropolitan Planning Organization (MPO); Fire Marshall, etc. which reviews all land use proposals and site plans which require Planning Board approval, and/or public hearing process.
