Comprehensive Plan future Land Use: Suburban Development

Suburban Development consists of significant single-family residential areas that exist around commercial pockets representing a standard suburban center. Typically, this would resemble subdivisions built around services for those communities. Suburban centers can also include multi-family houses and support services as well. These centers are larger than the rural centers and tend to not serve a significant civic or commercial purpose, aside from immediate neighborhood needs.

The location is primarily residential in nature with some commercial business located within a short distance, along Hickory Grove Rd. Housing types in the area include single family site built, modular and/or manufactured housing, including established neighborhoods and developments, along with private lots. CONSISTENCY STATEMENTS

The proposed rezoning is in the Suburban Development future land use plan. The area consists of significant single-family residential homes, along with pockets of commercial businesses. The use, going from (R-1) to (C-2) will make the subject parcel commercial in nature, which is consistent with the Suburban Development designation and is in harmony with uses within the immediate vicinity.

PLANNING BOARD RECOMMENDATION

Scheduled Meeting Date: June 6, 2022

Meeting Summary / Points of Discussion: Staff provided Board members with an overview of the application and property. Points of discussion included questions related to the existing use (church/religious institution) and any proposed uses, if known. Amy Crocker appeared before the Board to explain that this property was purchased by family who, in turn, used it as a church. According to the applicant, she intends to provide funeral services on site, with any embalming to be conducted off site. She has been in touch with the Health Department regarding appropriate permits and septic specifications. Also, included into evidence (attached), is an informal sketch provided by the applicant. Staff reminded Board members that this is a general rezoning and all uses allowed in the (C-2) Highway Commercial Zoning District must be considered.

The Board voted to approved the application, with a vote of (6) to (1), based upon the following statement of consistency: *The proposed rezoning is in the Suburban Development future land use plan. The area consists of significant single-family residential homes, along with pockets of commercial businesses. Please be advised that an approved general rezoning does not guarantee that the property will support an on site wastewater disposal system (septic tank). Though a soil analysis is not required prior to a general rezoning submittal and/or approval, the applicant understands a chance exists that the soils may not accommodate an on site wastewater disposal system thus adversely limiting development choices/uses unless public utilities are accessible.
