COMPREHENSIVE LAND USE PLAN (CLUP)

Area 4: The Garden Gaston

This area has various pockets of suburban development highlighted along the borders of the municipalities. The CLUP notes that the Rural and Rural community designated area may expand due to the impact of the Gastonia Municipal Airport. There are major transportation routes that run through the municipalities and into South Carolina.

Key issues for citizens in this area include:

- Road improvements and better connectivity to other areas of the County and throughout the region
- Another bridge crossing the Catawba River
- Increased walkability and connectivity between communities
- Continued coordination amongst local government agencies
- Maintaining enhanced quality of life

Comprehensive Plan Future Land Use: Rural

Rural areas are characterized as having plenty of open space with farmstead style housing, as well as agribusiness opportunities. This designation exemplifies Gaston County and the existing natural resources that exist throughout the jurisdiction. This is the default designation for Gaston County.

UTILITIES AND ROAD NETWORK INFRASTRUCTURE

Water/Sewer Provider:

Development of site will be dependent on approval from the health department for well and septic capacity

Road Maintenance:

Union Rd. is a North Carolina Department of Transportation maintained road

Technical Review Committee (TRC) Comments:

From Gaston Cleveland Lincoln Metropolitan Planning Organization:

- There are no funded transportation projects on the STIP or the Highway MTP
- There is a proposed project to widen Union Rd. to a 4-lane divided boulevard on the Comprehensive Transportation Plan (CTP) – The typical cross section for a four-lane divided boulevard involves a 100 ft. right-of-way – Union Rd. is currently a 60' right-of-way
- The CTP also shows bike facilities improvements along Union Rd.
- The MPO recently submitted the widening of Union Rd./Union-New Hope Rd. in its entirety from Beaty Rd. to South Carolina State Line, including sidewalks and bike facilities along both sides for NCDOT's latest round of prioritization.

From Emergency Services:

- Fire apparatus must be able to access the site

From Health Department:

- If applicant is going to have an office, they will need a septic system and well permit.

STAFF SUMMARY

Prepared By: Jamie Mendoza Kanburoglu, Long Range Planner

Overview:

Staff finds that the application, as presented, is consistent with the Comprehensive Land Use Plan. The Comprehensive Land Use Plan envisions expansion of development into the rural areas due to the effects of the Gastonia Municipal Airport on the surrounding area. Union Road has also been identified to be widened in the future to allow for more access and connectivity. There are several commercially zoned properties on Union Rd. as well further supporting future commercial uses on Union Rd.

Public Information Meetings:

The applicant advertised and held two public information meetings on June 27th and June 28th. Staff attended to answer process and technical questions. One neighbor attended the first public information meeting. After reviewing the site plan, she had no concerns.

Subject: GCLMPO Rezoning Review – Ferrell Grove Ave.

Thank you for the opportunity to provide comments on a proposed rezoning within the Gaston-Cleveland-Lincoln Metropolitan Planning Organization (GCLMPO) planning area. My comments are based on review of the site in accordance with the adopted Comprehensive Transportation Plan (CTP), the 2050 Metropolitan Transportation Plan (MTP), and the current State Transportation Improvement Program (STIP).

The site is located at Union Rd. PID: 301563. On behalf of the GCLMPO, I offer the following comments:

1. According to the 2020-2029 STIP, there are no funded transportation improvement projects in the immediate vicinity of this site.
2. The GCLMPO 2050 Highway MTP does not include any proposed improvements to any streets adjacent to the subject property.
3. A proposed project to widen Union Rd to a 4-lane divided boulevard is included in the MPO's CTP. The typical cross section for a four-lane divided boulevard with on-street bicycle facilities involves a minimum of 100 ft. right-of-way. The existing right-of-way along Union Rd is 60 ft.

CTP projects shown as "Needs Improvement" or "Recommended" could become a funded project in the future, part of a development project, or may never become a funded project. If a project shown on the CTP becomes a funded project, NCDOT will acquire necessary right of way in compliance with 49 CRF Code of Federal Regulations as well as NC General Statutes.

4. The CTP shows bike facilities improvements along Union Rd.
5. The MPO recently submitted the widening of Union Rd/Union-New Hope Rd in its entirety from Beaty Rd to South Carolina State Line, including sidewalks and bike facilities along both sides for NCDOT's latest round of prioritization. It is not likely that the project will be funded in the next STIP, but this will start the process for additional express designs/feasibility study.

6. Please note that for any site plan that requires a driveway permit on an NCDOT roadway, or is adjacent to NCDOT roadways, the property owner/developer should work with NCDOT on any required driveway permits or any TIA requirements.
