Zoning District Information

Current Zoning District:

(I-2) General Industrial – The I-2 district is established to provide for areas of heavier manufacturing and industrial uses that are properly sited, based on such factors as: adjacent land uses, access to the transportation network, and the availability of public services and facilities. It is the intent of this district to provide an environment for industries that is unencumbered by nearby residential or commercial development. I-2 zoned districts shall be located in areas where conflicts with other uses can be minimized to promote orderly transitions and buffers between uses. The I-2 district is established in order to provide sites for activities that involve major transportation terminals, and manufacturing facilities that have a greater impact on the surrounding area than industries found in the I-1 district. I-2 districts shall generally not be located adjacent to any property that is zoned for residential use, except when mitigating factors (i.e., terrain, buffering, and transportation access) are in place to substantively mitigate any potential negative impacts upon such residential areas caused by uses in the I-2 district. Any areas that are rezoned to an I-2 district subsequent to the adoption of this Ordinance shall be located so as to have direct access to or lie in close proximity of a principal or minor arterial.

(USO) Urban Standards Overlay District – Areas of the County which are located outside their corporate limits and/or municipal Extra Territorial Jurisdiction (ETJ) but where the provision of public water and sewer services can reasonably be expected to occur over the next 10-15 years, have been designated as the “Urban Standards Overlay District”.

Accordingly, standards for development, more akin to those that traditionally are found in urban areas, as opposed to rural areas, are called for. Standards addressed, but not limited to: building design, off-street parking, road, lot and subdivision standards.

Note: If any portion of the subject property is within the USO, then the entire property shall be developed in accordance with USO standards.

Proposed Zoning District:

(C-1) – The C-1 Light Commercial District is designed to accommodate a large variety of retail uses designed to meet the needs of individual neighborhoods, or other relatively small geographic areas. Stores and shopping complexes are therefore relatively small in size and are designed to be compatible and integrated with adjoining

residential neighborhoods. This zoning district is not intended to accommodate retail uses which attract persons from outside the neighborhood or which attract large numbers of passing motorists.

(USO) Urban Standards Overlay District – (as described above)

Comprehensive Land Use Plan (Small Area District)

Area 2: North 321 / North Central Gaston

Key issues for citizens in this area include preservation of open space; road improvements and better connectivity to other areas of the County and throughout the region; more transportation alternatives; preservation of agriculture and maintaining the rural “feel” of the community; and, steer development towards existing infrastructure and areas immediately surrounding towns and cities.

Comprehensive Plan Future Land Use: Suburban Development

It is staff’s opinion that the request *is consistent* with the Comprehensive Land Use Plan.

Technical Review Committee (TRC)

The request was reviewed by the TRC for comment and general compliance with applicable regulations and provisions. The TRC is made up of various technical land use reviewing agencies such as North Carolina Department of Transportation (NCDOT), Environmental Health, Gaston Cleveland Lincoln Metropolitan Planning Organization (GCLMPO), County Fire Marshall, et cetera, which review all land use proposals and site plans requiring Planning Board approval and/or public hearing process.
