Dear Sir or Madam,

I hope this letter finds you well. On behalf of the **Gaston County Board of Education** and **Hunter Huss High School**, I am writing to respectfully request consideration for the donation or long-term loan of two surplus vehicles: one operational police vehicle and one Basic Life Support (BLS) ambulance or EMS unit.

These vehicles would directly support the instructional needs of our Law and Justice and Emergency Medical Services programs. Both programs are designed to provide students with hands-on, career-focused training that prepares them for postsecondary education and entry-level public safety careers. Having access to authentic emergency response vehicles would significantly enhance our students' learning experiences by allowing them to participate in realistic, scenario-based training activities.

The vehicles would be used strictly for educational purposes on school grounds or in controlled training environments under staff supervision. Students would practice procedures such as vehicle inspections, equipment familiarization, patient care simulations, traffic stop protocols, and emergency response coordination. These experiences help bridge the gap between classroom instruction and real-world application while promoting safety, professionalism, and career readiness.

We understand that vehicles retired from county service may no longer meet operational field standards but still hold tremendous educational value. Our programs would ensure the vehicles are maintained in a safe, stationary training condition and used solely as instructional tools.

We would be grateful for the opportunity to discuss this request further and to complete any necessary paperwork or approval processes required by the county. Thank you for your continued support of educational initiatives that prepare students for vital roles in public service.

Sincerely,

Kelsey Elms
Principal
