COMPREHENSIVE LAND USE PLAN

Area 2: North 321 Gaston / North Central Gaston

Key issues for citizens in this area include preservation of open space; road improvements and better connectivity to other areas of the County and throughout the region; more transportation alternatives; preservation of agriculture and maintaining the rural "feel" of the community; and, steering development towards existing infrastructure and areas immediately surrounding towns and cities.

Comprehensive Plan future Land Use:

Rural – Rural areas are areas characterized by green rolling hills and plenty of open space. Residential homes are located on large lots and are set back from the roads they front upon. There are many opportunities for agribusiness ventures in this designation as well, including farming, landscaping and associated nurseries, etc. It is understood that this is the default use designation for Gaston County.

Staff Recommendation:

Application, as presented, is consistent with the Comprehensive Land Use Plan.

STAFF SUMMARY

Prepared By: Sarah Carpenter Penley, Senior Planner

This property is located in a residential area of the north central region of the county. The location is primarily residential in nature with a wood waste grinding operation located to the northwest of the property, and a small commercial pocket located southeast of the site. Housing types in the area are single family site built, with modular and/or manufactured housing located further out on surrounding secondary roads, which is not uncommon in a rural area and setting.

If approved, any uses allowed in the (R-2) Single Family Moderate Zoning District would be permitted in accordance with standards and regulations as adopted in the Gaston County Unified Development Ordinance (UDO).

PLANNING BOARD RECOMMENDATION

Scheduled Meeting Date: January 11, 2021

Meeting Summary / Points of Discussion: Staff provided Board members with a history of the property, which included that a home site for a double-wide manufactured home had previously occupied the area of consideration; the applicant wished to replace the previous manufactured home with a new double-wide manufactured home, however, the (180) day timeframe to do so (as allowed within UDO regulations) had expired; and, that a well/septic system were currently on site.

The Board <u>voted to approve</u> the application, with a vote of (8) to (1), based upon the following statement of consistency:

The proposed rezoning is in the Rural future land use plan. Rural areas allow for residential homes located on large lots with opportunities for agribusiness ventures. The use, going from (R-1) to (R-2) will allow the subject parcel to continue as a residential use in nature, which is consistent with the Rural designation and is in harmony with other residential uses within the immediate vicinity.
