Commissioners Committee Reports

Commissioner Brown wished the citizenry a Happy New Year and prosperous times in 2021.

Commissioner Hovis announced CaroMont is weathering the latest pandemic peak extremely well; urged everyone to please keep CaroMont staff in their prayers.

Chairman Keigher asked when the public might receive vaccines.

Commissioner Hovis responded per the National Directors of the Health Association it will be early April before the general public can obtain the three known inoculations; two have not made it through the trial period and it may be mid-February or mid-March before those get through the phase 3 evaluations.

Commissioner Worley advised the Mayor of Cramerton invited him to represent the County on the Southfork River Health Committee; the committee will address erosion, sedimentation and other issues related to the Southfork River and tributaries; the Mayor has asked for representation from the County, Belmont, Cramerton, Gastonia, McAdenville, Pharr, the Riverkeeper, Catawba Lands Conservancy and Senator Tillis and Congresswoman Foxx's offices; will advise the BOC of meeting dates once they are scheduled; meetings will be facilitated by the Centralia Council of Governments (COG). He noted it might be a good idea to have someone from Environmental Resources to attend some of these meetings.

Commissioner Hovis stated the County has an Environmental Review Board that handles erosion issues, etc., and asked if the committee would augment the work of this board; asked for clarification on the purpose of the committee.

COMMISSIONER'S COURT

GASTON COUNTY, NORTH CAROLINA

Commissioner Worley advised the committee will look at the health of the river, the sedimentation and erosion that has already occurred and any possible remediation; will look at the possibility of getting the Army Core of Engineers involved; this may be more Cramerton specific, but they have included neighboring cities/towns. He noted the significant changes that have occurred to the river over the years and concluded the committee will look at what can be done to make the river healthier.

Commissioner Hovis questioned if it involved reviewing sedimentation as a general function and not as a specific violated act.

Commissioner Worley responded that would be correct; this committee just wants to talk; do not fully understand the logistics but they want to gather all the stakeholders to determine if anything can be done to change what has already occurred.

Chairman Keigher advised that Commissioner Worley can accept the appointment at his own will; they can reach out to the County directly for resources or for help.

Commissioner Worley responded he thinks the intent is to include County staff. He stated he told them he would serve but wanted to make the BOC aware of it.

Commissioner Hovis recalled the recent retirement of the Natural Resources Department Director (David Freeman) and advised he would be an invaluable resource with his vast knowledge of environmental controls and state contacts/resources. He suggested the committee invite him to be an active participant.

Commissioner Worley stated he would pass along Mr. Freeman's contact information.

The County Manager advised she would update staff about the conversation and help facilitate this request.

County Manager's Report

The County Manager yielded to the DHHS (Health Division) Director for a brief slide presentation and overview on the vaccination rollout and a Covid-19 update.

Mr. Steve Eaton, Health Director (joining virtually) advised he had just left the County's first Covid-19 vaccine clinic and that over 150 medical first responders had been inoculated thus far and presented as follows:

- County Alert System: NC breaks counties into three groups based on percent of positive cases (total number tested; case rate per 1000; impact on hospital system); currently 65+ NC counties, including Gaston, are in the red tier that identifies counties seeing significant Covid-19 impact
- Gaston County Covid-19 Cases by Date Reported: The County is currently in the highest surge of new cases since the start of the pandemic; in August and September the County averaged 40 to 50 new cases daily and since November it has averaged over 160 new cases daily; the trend from Christmas to the New Year's holiday can continue to rise

DECEMBER 29, 2020

GASTON COUNTY, NORTH CAROLINA

for a potential surge on top of a surge; the County is also seeing a surge in the percent positive (total number of daily new positives) in relation to the total number of tests

- **Percent of Positive Tests, Based on Collection Date**: Currently the positivity rate is 16.61% which demonstrates a high penetration rate and greater transmission of the virus in our community; the County is testing close to 7,000+ individuals/week; prefers to see the percent positive around 5% or less
- Gaston County Covid-19 Hospitalizations: The County is seeing the highest surge in hospitalization; primarily all are hospitalized at CaroMont
- **Deaths**: The County has seen 244 Covid-19 related deaths at the average age of 77; 44% were over 80 years old; 31% were 70 to 79 years old; 16% were 60 to 69 years old; 7% were 50-59 years old; 2% were under 49 years old; with a split of 51% male, 49% females, 72% Caucasians, 21% African-Americans and 4% Hispanics; the greatest increase in deaths by month began in July and surged in October/November/December
- Vaccination Timeline: CaroMont received its initial vaccine allocation the week of December 14th and began vaccinating all of its front line medical staff; DHHS (Health Division) received 2,600 Moderna vaccines the week of December 21st; to date DHHS began its partnership with GEMS to vaccinate medical first responders; CaroMont and DHHS will continue its vaccination efforts the week of January 4 and beyond to other health care providers, long-term care facilities and others in that 1A population and will move to the 1B population when all 1A individuals have been given the chance to receive their vaccine
- Those most at risk get it first: NC created a vaccine distribution framework; all vaccine providers, including local Health Departments and Hospitals, are required to follow the priority framework; 1A includes healthcare workers on the front line of Covid and long-term care facility residents and staff; 1B includes the highest risk for severe illness, those with two-plus chronic health conditions and those at highest risk for exposure; *Phase 2* are for adults (65 years old and older) with high risk for exposure and increased risk for illness and those under 65 years old with one chronic health condition; *Phase 3* involves students and critical industry; *Phase 4*, spring time, is community-wide for anyone that wants the vaccine.

He concluded his comments by recognizing the amazing work CaroMont, Public Health staff, GEMS, Emergency Management and other partners are doing during this pandemic.

Chairman Keigher asked Mr. Eaton to email the report to the Clerk to the Board for distribution to the BOC.

Commissioner Hovis advised that the DHHS (Health Division) staff have done a great job in educating the public on an issue that changes daily; fortunate to have focused-individuals leading the County.
